Proven legal acumen through national accolades

Excellent Placement Record

Empowering students with strong career opportunities

ABOUT US

Delhi Institute of Science & Technology (DIST) was founded with the vision of bringing quality education to a region long deprived of it. As a self-financing institution, it serves as a vital center of learning, where academic aspirations find meaningful direction. An AICTE approved institute, affiliated with Guru Gobind Singh Indraprastha University (GGSIPIU) Delhi and approved / recognized by the Government of NCT, Delhi, the institute has emerged as a prominent educational hub in the region, attracting students from across the country and earning a reputation for academic distinction.

MISSION & VISION

OUR MISSION

Promoting professional education imbued with wisdom and ensuring ethical values in the areas of management, law, journalism, education and health sciences etc. These professionals shall act as change agents and would successfully tackle the hindrances in the path of progress.

To Increase the self employability in the nation.

To be a perennial source of professionals possessing the kind of knowledge & skill sets which may accomplish the India's cherished desire of attaining a developed status.

OUR VISION

At DIST, we strive to inspire wisdom by offering affordable quality education that equips students with the knowledge, skills, and values needed to become responsible citizens, innovative entrepreneurs, and future leaders. We are dedicated to holistic development through opportunities that foster critical thinking, creativity, communication, and cultural understanding. Embracing inclusive excellence, we ensure equity, accessibility, and meaningful outcomes for a diverse student community. Our student-centred environment promotes personal and professional growth in a safe, supportive, and value-driven academic setting.

THE BACKBONE *of our* **INSTITUTE**

Our vision is founded on dedication, transparent communication, strong collaboration, and a deep sense of responsibility. This forward-thinking culture encourages students not only to face modern challenges but also to take personal responsibility for contributing to society and the nation. Education should emphasize practical experience rather than just theoretical knowledge. Learning must be connected to real-life situations and inspire students to both understand and apply what they've learned—otherwise, it remains surface-level. A truly reputable institution strives to cultivate the potential of future global leaders. Our institution has outlined clear goals and implemented strategic initiatives to excel in every aspect of management education.

We take pride in our role in shaping graduates who are personally grounded, professionally skilled, and driven by a spirit of service. We uphold excellence and discipline as ongoing practices rather than one-time actions.

When individuals feel confident and fulfilled, they achieve great results—and those achievements further boost their confidence. We are committed to holistic learning and shared growth. Welcome to the DIST Campus.

Mr. Rafi Lal
Chairman

PROGRAMMES OFFERED AT DIST

BBA

The BBA program at DIST offers a strong foundation in business management, covering key areas like marketing, finance, HR, and operations. It emphasizes practical learning, leadership development, and industry readiness. The course prepares students for successful careers or further studies in the field of management.

B.TECH (CSE)

The B.Tech in Computer Science & Engineering at DIST equips students with strong programming, software development, and problem-solving skills. The curriculum blends core concepts with practical tools like Python, Java, and modern web technologies. It prepares students for careers in tech and innovation-driven industries.

LL.M. (Criminal Law/ Corporate Law/ ADR)

The LL.M. program at DIST offers advanced legal education with specializations like Corporate Law, Criminal Law, and IPR. It combines academic rigor with practical exposure through moot courts, case studies, and expert sessions. The course prepares students for a successful career in legal practice, research, or academia.

INFRASTRUCTURE AT DIST

Library

The fully automated library houses 4000+ books, 50+ journal subscriptions, and digital resources with high-speed internet. It supports UG and law students with access to national and international publications, e-journals, and a quiet space for self-study.

Classrooms

Spacious and smartly designed classrooms at DIST are equipped with modern audio-visual aids to support interactive learning. From web-based modules to project work, classrooms enhance teaching through simulations, multimedia, and traditional methods.

IT Centers

DIST has advanced computer centers with updated software, internet access, LCD screens, and uninterrupted power. These centers support teaching, project work, and student research with high-speed connectivity and modern digital tools.

Moot Court Rooms

DIST features a fully equipped Moot Court Hall with a 200+ seating capacity. It enables law students to gain practical exposure through mock trials and competitions, sharpening their legal research, drafting, and oratory skills.

❖ Seminar Hall

The air-conditioned seminar room at DIST accommodates 100+ attendees and includes a projector, audio-visual system, podium, and recording tools—ideal for seminars, lectures, group discussions, and academic events.

❖ Sports Facilities

DIST encourages all-around development through vibrant sports activities. With excellent infrastructure and regular intra & inter-college tournaments, students can engage in various sports and fitness events on campus.

❖ Cafeteria

The spacious campus cafeteria serves nutritious Indian meals, snacks, and beverages. Food is prepared hygienically with RO water, ensuring a safe and refreshing space for students and faculty to connect and unwind.

❖ Transportation

DIST offers bus services across major Delhi-NCR routes at nominal rates. Cabs, public transport, and institute minibuses for excursions and industrial visits are also available—ensuring safe, eco-friendly, and convenient travel.

Facility for Divyang

DIST supports differently-abled students with ramps, rails, special toilets, and scribe services. The campus is accessible and continually upgraded to ensure comfort, dignity, and ease of learning for all students.

At DIST, we are committed to nurturing students by making the teaching-learning journey meaningful, engaging, and future-ready. Education here goes beyond textbooks—it is a blend of vision, planning, innovation, and holistic development. Our dedicated team strives to empower students through goal-oriented learning, ensuring they grow academically and personally.

We constantly provide opportunities throughout the year to involve students in co-curricular and extra-curricular activities, enabling them to explore their full potential. Our goal is to shape responsible leaders, educators, and entrepreneurs who can contribute meaningfully to society.

By fostering a problem-solving mindset, creativity, confidence, and discipline, we prepare students to face the world with courage and purpose. Our emphasis on both scholastic and life skills ensures a balanced growth environment.

We thank you all for being part of this transformative journey. As Nelson Mandela said, “Education is the most powerful weapon which you can use to change the world.”

We wish continued growth and success to every DISTian!

Dr. Bhaskar Gupta
(Director, DIST)

PLACEMENTS AT DIST

At DIST College, our Placement Cell plays a vital role in connecting students with top companies. We focus not only on recruitment support but also on preparing students for industry readiness. Through focused training programs, we help students build confidence, improve communication, sharpen analytical thinking, and develop essential technical skills.

Our team collaborates closely with organisations across various industries to stay aligned with evolving corporate needs. Regular industry interactions, seminars, internships, and project-based learning help students gain real-world exposure. With strong industry partnerships and a student-focused approach, DIST College consistently achieves 100% placement for all eligible graduates.

Our Objectives

- To maintain a regularly updated student database for effective corporate outreach and placement support
- To understand the hiring needs of companies and guide students toward the right opportunities
- To ensure fair and equal access to placements for every eligible student
- To prepare students for long-term career growth by aligning training with industry expectations
- To strengthen students' technical, analytical, and communication skills, helping them succeed in competitive environments

Training & Placement Cell – Overview

"Every dream begins with belief—and we're here to turn that belief into action. Your journey is ours to support."

At the Delhi Institute of Science & Technology (DIST), our Training and Placement Cell operates with a strong sense of purpose to empower students with the right opportunities and prepare them for successful careers. We are committed to transforming students into capable professionals, ready to thrive in the world of work. Our Placement Cell acts as a crucial link between students and the corporate world. Through active collaboration with industry leaders and reputed companies, we ensure our students are equipped with a platform to demonstrate their skills and potential. We conduct regular training sessions that focus on both technical knowledge and soft skills, including resume writing, interview preparation, communication, and critical thinking. These sessions are designed to help students confidently navigate the ever-changing job market. Whether it's for internships or full-time positions, the Placement Cell at DIST supports students at every step of their career journey, managing the entire recruitment process from registration to final placement with care and precision.

Mr. Deepak Kumar
(Training & Placement Cell)

Career Support Services

At DIST College, our Placement Cell also functions as a dedicated Career Development Center, offering students personalized guidance and support to prepare for the professional world. Our services include:

- **Career Counseling:** Guiding students in exploring career options, understanding industry trends, and aligning their strengths with the right career paths.
- **Resume & Cover Letter Guidance:** Helping students craft tailored application materials with personalized feedback for various roles and sectors.
- **Job Search Assistance:** Providing access to curated job opportunities, networking events, and timely updates on openings through our partner networks.
- **Internships & Industry Exposure:** Creating valuable hands-on learning experiences by connecting students with companies for internships and projects.
- **Employer Interactions:** Organizing campus drives, job fairs, and seminars with recruiters to enhance students' visibility and job-readiness.

Our Vision

To bridge the gap between education and employment by equipping students with the right skills, exposure, and career opportunities.

Our Mission

To empower every student to discover their potential, grow professionally, and pursue meaningful careers through continuous training, mentorship, and active engagement with industry.

Placement Policy

At DIST College, we respect the time and effort invested by both recruiters and students. To maintain a professional and transparent process, we expect students to participate in placement drives only if they are genuinely interested in pursuing the opportunity.

- **Commitment is Key:** Students who receive an offer are expected to honor their acceptance. Backing out after selection reflects poorly on both the student and the institution and can affect future placement opportunities for others.
- **Pursuing Higher Studies:** Students who intend to pursue further education—whether in India or abroad—should refrain from participating in placement activities.
- **Off-Campus Placements:** Students who secure positions through off-campus opportunities must inform the Placement Cell and withdraw from ongoing placement processes to avoid duplication and ensure fairness.

Placement is a support system provided by the institute, not an entitlement. We encourage students to approach it with sincerity, professionalism, and respect for all stakeholders involved.

Placement Procedure

At DIST College, the placement process is thoughtfully structured to connect students with meaningful career opportunities across sectors. The goal is to ensure a smooth, fair, and effective selection experience for both students and recruiters. The standard steps in the campus recruitment process include:

1. Pre-Placement Talk (PPT)

This is the first step in the process, where visiting companies conduct a session to introduce their organization, job roles, and expectations. These presentations usually cover:

- Company background and culture
- Available job profiles and growth prospects
- Compensation and benefits
- Work environment and values
- Selection process details

These sessions help students make informed decisions about whether to apply for a specific company.

2. Written Tests

Companies may conduct written tests to assess candidates' aptitude, technical knowledge, and behavioral traits. Common assessments include:

- **Aptitude Test:** Assesses logical reasoning, quantitative ability, data interpretation, and communication skills
- **Technical Test:** Subject-specific questions related to core academic knowledge
- **HR/Personality Test:** Evaluates decision-making, ethics, cultural fit, and interpersonal skills

3. Group Discussion (GD)

Shortlisted candidates may participate in a group discussion to assess:

- Communication and articulation
- Teamwork and leadership
- Confidence and clarity of thought
- Logical presentation of ideas

This round gauges how candidates perform in a collaborative, high-pressure setting.

4. Personal Interviews

Students who clear the GD (if applicable) proceed to personal interviews, typically in two stages:

- **Technical Interview:** Conducted by subject experts to assess academic knowledge, problem-solving, and job readiness
- **HR Interview:** Evaluates personality traits, aspirations, adaptability, and alignment with company culture

Interviewers may also ask situational or behavioral questions to assess overall suitability for the role.

Eligibility & Registration

To participate in the placement process, students must meet the following criteria:

- Open to **final and pre-final year students**
- **Minimum eligibility:** 60% marks throughout academics with no active backlogs
- Mandatory registration with the Placement Cell is required for all placement activities
- Students must submit a **Declaration of Commitment** or **Declaration of Non-Interest** before placement season begins
- Regularly checking college emails and notice boards for placement-related updates is expected

Terms & Conditions

- Students must maintain discipline, punctuality, and professionalism during all placement-related interactions.
 - Proper formal attire and courteous behavior are expected during interviews and company visits.
 - If unable to attend a scheduled interview, students must inform the Placement Cell in advance.
 - Once a student has secured a placement, they will not be permitted to participate in further company processes.
 - Students must carry all necessary documents (including updated resumes, photographs, and certificates) to interviews.
 - Any violation of these guidelines may result in disqualification from current and future placement opportunities.
-

Campus Drive & Activities

At DIST, we believe early preparation leads to success. From the 2nd year itself, our Training & Placement Cell starts working closely with students to make them industry-ready.

We Offer:

- **Placement ERP:** A centralized system for placement updates and communication between students, faculty, and parents.
- **Job Fairs:** Annual events with 50+ companies offering job and internship opportunities.
- **Skill-building Workshops:** Resume writing, aptitude training, interview preparation, and more.
- **Assessment Tests:** To evaluate and improve job readiness.
- **Alumni Mentorship:** Former students from top companies guide and mentor current batches.

Thanks to our continuous efforts, our students have been placed with top recruiters like Infosys, TCS, Wipro, HCL, Tech Mahindra, ICICI, Amazon, Adobe, Microsoft, and many more.
